COMPETING INTERACTIONS IN DOPED MANGANITES

Competing Interactions in
Doped Manganites
Effects of Competing Interactions and Phase
Separation in Doped
Rare-Earth Manganites

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Effects of Competing Interactions and Phase Separation in Doped Rare-Earth Manganites | The magnetic and transport properties of the doped manganites colossal magnetoresistive (CMR) compounds with the perovskite structure are mainly characterized by a competition between ferromagnetism and antiferromagnetism, and between a metallic and insulator behavior. The effects of the magnetic and transport measurements of the CMR compound have been investigated by different DC and AC techniques. The magnetic and transport behavior...
