For explanation of terms and comparability of 1977 and 1982 censuses, see appendix A. For information on geographic i followed by A, see appendix F Places with suppressed sales (if applicable) are listed at end of table rather than by rank to avoid disclosing data for individual companies. General Explanation CENSUS COVERAGE AND METHODOLOGY Structure and method of enumeration--All wholesale firms that had at least one quarter of payroll in 1982 were included in the census of wholesale trade and were mailed either a regular census form or a short classification form. The coverage and the method of obtaining census information from each follow: 1. Large companies, i. e. , all multiunit firms and all single-unit firms above the payroll size cutoff established to separate large from small employers, and a 10-percent sample of the small employers were mailed the appropriate 1982 Census of Distributive Trades establishment report forms. Although the payroll cutoff varied by kind of business, small employers generally included firms with one to three employees and represented about 10 percent of total wholesale sales. For the large companies, a report of company organization is conducted periodically to identify firms which operated establishments at more than one location and to obtain information on payroll and mid-March employment at each location. The 1981 Report of Company Organization was used as a coverage check in the census. In the...
