By Richard L Epstein, Carolyn Kernberger

Advanced Reasoning Forum, United States, 2014. Paperback. Book Condition: New. 254 x 203 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Clear. Concise. The Guide to Critical Thinking in Economics is a summary and guide to the art of reasoning well in economics and in everyday life. Basic Skills of Critical Thinking The text provides a clear-introduction to claims, arguments, analogies, models, experiments, generalizing, and cause and effect reasoning using examples geared to economics students. Mastering Basic Skills Hundreds of examples are included, three-fourths of which are derived from real-life economics applications or are adapted from economics textbooks and journals. Economic Modeling This unique section explores the way models are created in economics. By looking at the process of creating models, students learn how abstraction from data benefits economic analysis. Self-Paced Presentation The text is designed to be used by students without taking class time away from economics studies. Richard L. Epstein received his Ph.D. in Mathematics from the University of California, Berkeley and has written numerous books on logic, critical thinking, and mathematics. He has been a National Academy of Sciences Scholar and a Fulbright Fellow and is currently head of the Advanced Reasoning Forum. Carolyn...
