Archway Publishing, United States, 2013. Paperback. Book Condition: New. 201 x 124 mm. Language: English . Brand New Book ***** Print on Demand *****.Our president knows it, our parents know it, and our children know it: education is the single most important key to achieving success in today's competitive world. In this handbook, a seasoned professor combines ideas from teachers across the nation with research and insight gathered from his own classroom experiences to share a compelling narrative on what works and does not work in today's public education system. Dr. Otto E. Arschdorn, who taught in Germany and the United States, offers a provocative perspective on American public education that he hopes will become a wake-up call that our system of learning needs to be transformed. As he examines life inside the classroom, Dr. Arschdorn offers thoughtful opinions on teaching methodologies that work in the classroom; ways to motivate unmotivated students; why schools should consider implementing a three-branch educational approach; how to stop disenchanted parents from taking control; and why critical thinking and problem solving are at the center of academic existence. Voice of Pedagogy provides a platform for American teachers to offer ideas for positive change in our public school system so that we can meet the educational challenges of the future and continue to be a country of free thinkers.
