LOVELAND, Section Director. LINCOLN. NEBR. Vol. X. LINCOLN, NEBR. No. 13 SUMMARY OF CROP CONDITIONS FOR 1905. January.--A cold month with an unusual amount of snow, the ground being covered with snow during the last three weeks to a depth of from four to twelve inches. February.--An unusually cold month with a slight excess in snowfall. The depth of snow on the ground increased in some places to more than twenty inches, but nearly all melted during the last week of the month. March.--A very warm month with about normal precipitation. Spring work on the farm progressed rapidly with soil in excellent condition. Grass and winter wheat started early and made an excellent growth. April.--The first ten days were warm and work progressed rapidly. Spring wheat was about all sown, while oat sowing was finished in southern, and well...

Reviews

If you need to adding benefit, a must buy book. It can be loaded with wisdom and knowledge I discovered this ebook from my dad and i encouraged this pdf to discover.

-- **Darrin Kutch**

This written publication is fantastic. I am quite late in start reading this one, but better then never. You will not feel monotony at at any time of your respective time (that's what catalogues are for concerning should you ask me).
